

The **INDYOIL** Range has been created to help protect your Body, Mind and Spirit from illness and negativity. Used effectively for thousands of years, Essential Oils have been proven to be extremely powerful medicinally in their ability to heal and prevent disease and emotional distress.

Currently in a world gone crazy, stress levels appear to be so high for so many. As an Energy Healer and someone that understands the challenges of every day life, my mission has become to offer people alternatives to the harsh reality of the medication pathway for these issues.

Extensive pharmaceutical use, alcohol, over use of chemicals and sprays in our homes and environment, toxin filled body products, undocumented food sources, stressful and anxiety filled days.

The list is endless and inevitable and regardless of whether we choose to ignore it or not our bodies are suffering from the effects of it.

The range of IndyoOils, each different in their niche, give some relief to the adverse effects of the daily negative impact on our bodies and spirits.

The IndyoOil range is created from a wonderful Organic Golden Jojoba Oil base with pure Essential Oils each intuited and blended especially for a specific purpose.

JOJOBA OIL is probably one of the most hydrating oils in the world and it does so in a way that is non-oily.

Jojoba Oil also contains so many of the wonderful things we need daily, including vitamin E, vitamin B complex, silicon, chromium, copper and zinc, making this an oil which suits all skin types.

One of the many benefits of Jojoba Oil is that it plays the role of sebum and moisturises our skin and hair when our body stops doing it naturally.

It works on your face, neck, hands, feet and hair; you can use it anywhere on your body because it's completely natural and contains no chemicals that can sometimes lead to an allergic reaction.

Protection through Essential Oils helps nourish and support the body and mind during these times of Environmental and Spiritual Stress.

We always recommend a patch test before using

DEVI Simple Holistic Prevention. Devi was designed firstly intuitively, then after extensive research into how we can best prevent and defeat the onslaught of unnecessary disease within our bodies.

This had to be in a way that did not just mask the issue, as pharmaceuticals tend to do, but to actively prevent or fight the damage and assist our immune system in combating inflammation and illness before any damage is done, including the really nasty ones.

The negative energy we encounter in every day life tends to drag us down, impacting our love of life, our mental wellbeing and especially our general health.

Negative energy is not only created through the ways that are obvious, today we live in a world of heavy Electromagnetic Fields (EMF) and Wireless Radiation Energy that continuously impacts us. Something we can do little to avoid.

When you look at the effects EMF's and Wireless Radiation have on immune system suppression, blood cell functions and health and cellular communication, the need for remedy's becomes an important issue for us all.
